

RM6 - High Speed On-Line Labelling

The RM6 labeller is the preferred high-speed solution for selective labelling over multiple lines of singulated produce. Banks of RM6 applicators, mounted over existing sizers or conveyors, function as fully integrated and synchronized components of the packing line.

Applications

- Multi-lane high-speed sizers and singulators.
- Selective labelling via system interface to sizer computer.
- Ideal for bulk-fill labelling.

Throughput

- 720+ fruit per minute per lane (variable speed).

Features

- Bellows extend 55mm to accommodate variations in fruit size.
- Frame height is adjustable to allow for a wide range in produce (e.g. from lemons to grapefruit).
- Empty cassette warning light with beacon.
- Multi-banked installations can accommodate a wide range of fruit sizes; from small to extra-large PLUs.
- Runs CP2.5 to CP5.0 size labels.

Optional

- Waste tape collection unit.

The Sinclair Label

The Sinclair label is the industry standard for individual fruit labelling. Whether for brand, variety/PLU, country of origin, barcode or promotional labelling, the Sinclair label is the preferred choice.

Food Safety

Sinclair supplies food labels to the highest level of quality and food safety that comply with all relevant legislation including US FDA, EU and other bodies. Sinclair labels are approved for use in direct food contact applications.

Barcode Scannability

The barcodes on Sinclair DataBar labels conform to ISO specifications by employing on-line verification, which instantly grades the quality of the codes. You can be assured of top-quality barcodes when using Sinclair barcoded labels.

Label Removal – TabLift®

Sinclair labels are removed quickly and easily--- and all in one piece due to Sinclair's unique TabLift® feature. The tab is designed so that the entire label peels off cleanly and easily. TABLIFT™ labels are ideal for use on edible skin fruit.

Graphic Design

Sinclair has in-house graphic design with quick turnaround. Our graphic design team collaborates with customers, marketing organisations and retailers on optimal label design solutions.

Unique Composition

The Sinclair label is made from micro-thin polyethylene, enabling the label to conform to curved, rough or uneven surfaces with superior adhesion.
