## INNOVATIVE TECHNOLOGY TO MAXIMIZE EFFICIENCY

ON-LINE LABELING

MULTI-LANE 2-16

300 FRUITS PER MINUTE

ADJUSTABLE HEIGHT

SOFT TOUCH BELLOWS

QUICK CHANGE CASSETTE

## CR4 FMH

MULTI-LANE

CR4 Fixed Multi-Head machine is the perfect solution for labeling narrowly spaced rows of singulated fruit. With the capacity to label up to 300 fruits per minute per lane, this machine is designed to improve efficiency and accuracy. Fruit detection is done through a scanner bar ensuring precise labeling.

### TECHNICAL FEATURES

Labeling format	Multi-Lane
Throughput - Fruit per minute per lane <sup>1</sup>	Up to 300
Number of lanes	2- 16
Label sizes (width)	18 - 26mm
Fruit scanners - Label all (HOS)	•
Applicators synchronize to changing line speeds	Auto
Mounting options	Flexible mounting options to suit singulator
Manual machine frame height adjustment	Electric
Soft-touch, food-safe bellows label application	•
Quick change label cassettes	•
Empty cassette warning light & beacon	•
Chop & blow waste tape collection system	•
Electrical input voltage range	4 400V 50/60Hz 3Ph +E

<sup>1</sup>Final throughput speed and mounting options dependent on packinghouse configuration.

### BRANDING SOLUTIONS

With sustainable label options available, our food-safe fruit labels come in a variety of types, shapes & sizes - customized to your brand & supply chain needs.

### EXPERTISE & SUPPORT

Our Service Team provides in-field expertise & support as part of your labeling agreement with no hidden costs & for peace of mind.

# Sinclair fruit & vegetable labels

We provide custom-designed, food-safe fruit and vegetable labels in a wide array of shapes, sizes, styles and for all functions. Whether for branding, traceability, PLU (Price lookup code), country of origin, variety, barcode or promotional labeling, our labels will fit any requirement your company has.

## FOOD SAFETY

All our labels are approved for use in direct food contact applications. We supply food labels to the highest standards complying with all relevant food safety legislation including US FDA, EU and other bodies.

## SUSTAINABLE LABELING

As a pioneer of the first certified compostable fruit label, we have a number of sustainable label options available. Choose from our TÜV Austria OK compost certified home or industrial compostable solutions to ensure your labeling program is environmentally friendly.

## BARCODE, QR CODE, DATABAR SCANNABILITY

All barcoded labels - GTIN, databar and 2D(QR) code - are verified to ISO standards during the printing process, so you can expect data integrity and checkout efficiency. 2D codes enable consumer engagement with your product quickly and easily.

## LARGE LABELS

Fruit and vegetables come in all shapes and sizes. Our large label is the ideal automated, high-speed label solution for melons, squash and other large fruit or vegetables.

## EASY REMOVAL - SINCLAIR TABLIFT®

Our Sinclair Tablift® labels are made from micro-thin high-performance material enabling the label to conform to curved, rough or uneven surfaces with superior adhesion. The unique label feature allows consumers to remove a Sinclair produce label quickly and easily – and all in one piece.

## VARIABLE PRINT LABELS

Our Print On Demand technology enables printing of variable information at the point of application at high speed while fruits and vegetables are conveyed at high speeds in the packinghouse.

## PEEL & REVEAL - THE LABEL WITH TWO SIDES!

Peel & Reveal labels enable you to delight the consumer with additional messaging or a unique code visible on the back of the label. Utilize the back of your label for your brand, product information or promotion!
